Fresh attack
Silky, vinous palate
Great acid structure

Dry spring
Thunderstormy summer
Sunny september

September 12-19

Veal medallion
with morel mushrooms

2014 MILLESIME CHRONICLE

Harvesting at the estate began on September 12 and ended on the 19th. The growing season was marked by a dry spring, followed by a particularly thundery summer, making harvesting uncertain. Fortunately, the end of the ripening period was summery, allowing for a healthy harvest and grapes reaching a good level of ripeness. Our Passion 2014 opens with a lively attack, followed by a silky texture, all carried by beautiful acidity and assertive minerality. A remarkable expression of Bouzy's terroir.
